The Examiner has requested that the Applicant and the assignee of the above-identified application provide certain information under 37 C.F.R. Section 1.105.

The inventor, Andre Smaal, has represented to the licensee of the above-identified application who has represented to the undersigned attorney, that plants of the Kalanchoe variety named 'Pellinore' were first introduced for sale in Japan in January 2001. ### Objection to the Disclosure

The disclosure is objected to under 37 C.F.R. Section 1.163(a) and under 35 U.S.C. Section 112, first paragraph, as providing less than a full, clear and complete botanical description of the plant and the characteristics that define the

plant *per se* and which distinguish the plant from related known cultivars and antecedents. More specifically, the Examiner raised the following issues:

- A. The Examiner stated that 37 C.F.R. 1.52(b) requires that the pages of the specification including the claims and abstract be numbered consecutively. Applicant herewith encloses a substitute specification in which the pages are numbered consecutively.
- B. The Examiner stated that Applicant should disclose the internode length. Applicant has amended the specification to include this information.
- C. The Examiner stated that Applicant should disclose the petiole diameter. Applicant has amended the specification to include this information.

In view of these amendments to the disclosure, Applicant submits that the objection under 37 C.F.R. Section 1.163(a) and 35 U.S.C. Section 112, first paragraph, should be withdrawn.

#### Claim Rejection

Claim 1 is rejected under 35 U.S.C. Section 112, first and second paragraphs, as not being supported by a clear and complete botanical description of the plant for the reasons set forth in the Objection to the Disclosure Section.

Applicant herewith incorporates by reference the arguments made above. Therefore, in view of the above described amendments to the disclosure, Applicant submits that this rejection should now be withdrawn.

#### Conclusion

In view of the aforementioned amendments and arguments, Applicant submits that the claim is now in condition for allowance.
